Datasets

For this project I will be utilizing the Foursquare API, as well as the Novel Coronavirus 2019 Dataset found here on Kaggle:

The Kaggle dataset provides information on Covid-19 infection and mortality in cities across the world (but we will focus only on the United States), and the Foursquare API will be utilized to understand those areas, and try to learn about differences in the local availability of certain types of foods, and their effect on Covid-19.
